

Civil/Structural Engineer

Summary/Objective

Our San Diego, CA office is seeking an entry level **Civil or Structural Engineer** to provide engineering services related to overhead electric power lines. If you like challenging assignments, are self-motivated and want to grow your career, consider joining the EDM Team.

Essential Duties and Responsibilities:

- Assist in designing and engineering electric distribution and transmission utility infrastructure.
- Analyze and design utility structures and foundations.
- Create job packages, construction documents, drawings, reports, maps, plan-profiles as well as standards.
- Utilize industry standard software (PLS-CADD) to analyze and design structural and overhead power lines, create alignments, and assess structural capacity of structural components.
- Participate in project coordination and review meetings as requested by client.
- Develop knowledge of and apply all applicable industry codes (applicable utility design documents, NESC, G.O. 95, IEEE, etc.)

Qualifications/Experience:

- Bachelor of Science in Civil or Structural Engineering from an accredited ABET university/college is required.
- Registration as an Engineer-In-Training (EIT) is preferred and desire to work towards obtaining PE license is required.
- 1 – 3+ years of experience with overhead and underground electric utility is preferred
- Distribution or Transmission overhead line design and construction experience is preferred.
- Experience in drafting with AutoCAD is preferred.
- Must be authorized to work in the U.S.

Competencies:

- A positive, team-oriented, and professional attitude is required.
- Strong organizational and project coordination abilities are required.

Special Requirements - Pre-employment checks will require satisfactory results of the following screens:

- Background Check
- Motor Vehicle Driving Record
- Drug Test (including controlled substances)
- Education and Employment Confirmation
- Reference Checks

Supervisory Responsibility: None
