

UTILITY ENGINEER

Our Fort Collins office is seeking an entry level **Utility Engineer** to provide engineering services related to overhead electric power lines. If you like challenging assignments, are self-motivated and want to grow your career, consider joining the EDM Team.

Responsibilities

- Assist in designing and engineering electric distribution utility infrastructure
- Analyze and design utility structures and foundations
- Create job packages, construction documents, drawings, reports, maps, plan-profiles as well as standards
- Utilize industry standard software (PLS-CADD) to analyze and design structural and overhead power lines, create alignments, and assess structural capacity of structural components
- Participate in project coordination and review meetings as requested by client
- Develop knowledge of and apply all applicable industry codes (applicable utility design documents, NESC, G.O. 95, IEEE, etc.)

Qualifications/Experience/Education:

- Bachelor of Science in Civil or Mechanical Engineering from an accredited ABET university/college is required
- Registration as an Engineer-In-Training (EIT) is preferred and desire to work towards obtaining PE license is required
- 1 – 3+ years of experience with overhead and underground electric utility is preferred
- Distribution overhead line design and construction experience is preferred
- Experience in drafting with AutoCAD is preferred
- Positive, team-oriented, and professional attitude is required
- Strong organizational and project coordination abilities is required
- Must be authorized to work in the U.S.

Salary Range: \$55-65K per year plus discretionary bonus
