

## **DISTRIBUTION ENGINEER**

Our San Diego office is seeking an entry-level **Distribution Engineer** to work directly with our clients/vendors and field personnel revising overhead and underground distribution standards, assessing technical data on new products and working with testing labs and research facilities. If you like challenging assignments, are self-motivated, and want to grow your career, consider joining the EDM Team.

### **Responsibilities**

- Update existing and create new construction standards as directed
- Perform electrical technical analysis to support new product selections
- Determine cost alternatives to meet GO95 or NESC requirements
- Develop scope of work for clients to accomplish their technical and financial needs
- Update clients on progress of technical work and any changes to schedules
- Meet with clients periodically, travel to job sites and work directly with field personnel, testing labs and research facilities

### **Qualifications**

- Bachelor of Science in Engineering (Electrical) from an accredited ABET university/college or Bachelor of Science in Engineering Technology (Electrical) with relevant experience is required; Power engineering discipline is preferred
- Engineer in Training (EIT/FE) is preferred and desire to work towards obtaining PE license is required.
- 1 – 3+ years of experience with electric utility overhead, underground equipment and installation techniques is preferred
- Distribution overhead line design and construction experience is preferred
- Positive, team-oriented, and professional attitude is required
- Strong organizational and project coordination abilities are required
- Creative problem solving and relationship building skills are required
- Must be authorized to work in the U.S.

### **Company Overview**

EDM has become a leader in the electric utility, energy, construction, and communication industries by merging excellence in engineering and science with a genuine concern for our clients' needs. Headquartered in Fort Collins, CO, with offices in Billings, MO, San Diego, CA and Phoenix, AZ, the success of our consulting, research and development services is attributed to our team of dedicated employees.

We are a family-oriented, employee-owned company and offer exciting opportunities with an excellent compensation and benefits package including but not limited to, health insurance, paid holidays, retirement program, ongoing growth potential and a strong work/life balance.
